The 3rd European *AMIGA* Developers Conference
Special Events Information

Tuesday, Febr. 6th, 1990
12.00 - 20.00 Quick Start for Programmers with Eric Lavitsky

This session is intended to get new *AMIGA* programmers familiar with programming in C using special techniques to take advantage of the unique features of the computer.

13.00 - 15.00 A500 and A2000 Peripheral Design
with David Haynie and Greg Berlin

An introductory and refresher session covering *AMIGA* peripheral design. Included are the *AMIGA* expansion bus, PIC model, auto-config and a discussion of a sample peripheral design.

Pre-registrations for these two sessions recommended !

Wednesday, Febr. 7th, 1990
NAPOLEON's Night beginning at 19.30

Casual party with food and drink to get together, meet new people and maybe start new business contacts in an informal atmosphere. There will be a competition for
"The craziest French (Revolution) Costume"
with awards for the three best ones.

Have fun as the rest of the conference looks like work !

Friday, Febr. 9th, 1990
14.00 - 15.00   You asked us   Moderator: Gail Wellington

We know it won't be possible to answer everyone's question during the sessions. To adress the right person with your question you can use the **"ASK US"** form you will find at the registration desk. We'll make sure that the right person receives them and is prepared to provide the answer during this session.

Friday, Febr. 9th, 1990
15.00 - 18.00 Show Off

Show and demonstrate your product to the other professional developers and see what they have got. Exchange ideas and more ! Space is available on a first come, first serve basis, requests from members of the A.D.S.P.E will be given priority.

Request for space with the appropiate form mandatory !
